

Central Plains Irrigation Short Course Proceedings

February 13 and 14, 1989
Colby, Kansas

Crop Water Use	R. Wayne Shawcroft	1-6
Reasonable Cost Irrigation	Danny H. Rogers	7-11
Center Pivot Uniformity for Chemigation	Dale F. Heermann	12-26
Selecting Sprinkler Packages with Tillage Practice Interaction	William Kranz	27-38
Changing from Continuous Flow Irrigation to Cabledation or Surge Irrigation	Israel Israeli	39-49
Nebraska Surge Irrigation Results	C. Dean Yonts & Dean E. Eisenhauer	50-56
Workshop C -- Irrigation System Conversions	Harold R. Duke	57-64
Irrigation Pumping Plant Alternatives	Norman L. Klocke & Richard T. Clark	65-75
Concepts of Irrigation Scheduling	Danny H. Rogers	76-81
Irrigation Scheduling and Water Quality Concerns	William Kranz	82-88
Limited Irrigation and Crop Rotations	Gary W. Hergert, Norman L. Klocke, Paul T. Nordquist, Gail A. Wicks, & Richard T. Clark	89-96
Crop Responses under Various Irrigation Scheduling Criteria	Freddie R. Lamm	97-104
Deficit Irrigation Planning	Derrel Martin	105-114
Soil-Water-Plant Relationships	Richard D. Black & DeLynn R. Hay	115-122
Managing Deficit Water Supplies	Jack T. Musick	123-145

February 5 and 6, 1990
Wray, Colorado

Overview of New Developments in Sprinkler Irrigation	Dale F. Heermann	5-12
Workshop A -- Low Energy Precision Applications (LEPA) for Center Pivot Machines	L. New, C. Buchleiter, W. Spurgeon, & B. Unruh	13-18
LEPA Irrigation Project Report	Bill Spurgeon	19-20
Workshop B -- Selecting Sprinkler Packages for Specific Conditions	William Kranz, Dale Heermann, Larry Brisendine, & Les Jochens	21-28
Workshop C -- Center Pivot Runoff	Danny H. Rogers & Freddie R. Lamm	29-35
Workshop D -- Chemigation -- Safety, Equipment and Recommendations	William M. Lyle, Gary Newton, R. Wayne Shawcroft, & Stan Pilcher	36-43
Why Irrigation Water Management	N. L.. Klocke, D. G. Watts, W. L. Kranz, & K. G. Hubbard	44-52
The Impact of Irrigation and Nitrogen Management and Vadose Zone Conditions on Ground Water Contamination by Nitrates	Darrel Watts	53-63
Nitrogen Management for Sprinkler Irrigation	James S. Schepers	64-70
Irrigation Scheduling with Atmometers	Israel Broner	71-80
Computerized Irrigation Scheduling and Radio Control for Center Pivots	Gerald W. Buchleiter & Kenneth Goeglein	81-84
Irrigation Scheduling with Personal Computers	Ronald Roeber, Norman L. Klocke, & Terry Boekstadter	85-91
Drip Irrigation of Corn in Kansas	Danny H. Rogers, Harry L. Manges, & William E. Spurgeon	92-96

February 5 and 6, 1991
North Platte, Nebraska

Furrow Irrigation Management	Israel Broner & Joel Cahool	1-22
Managing Furrow Irrigation Systems	Dean E.. Eisenhauer, David L. Varner, C. Dean Yonts, & Wayne Liesemeyer	23-33
Fundamentals of Surge Irrigation	C. Dean Yonts, Dean E. Eisenhauer, & Joel E. Cahoon	34-41
Application of Surge Irrigation	C. Dean Yonts, Dean E. Eisenhauer, & Joel E. Cahoon	42-51
Sprinkler Irrigation Basics	Dale F. Heermann	52-58
Characteristics of Sprinkler Packages	Les Jochens	59-63
Irrigation with LEPA	Gerald W. Buchleiter	64-68
Sprinkler Evaporation Losses and Efficiency	Terry A. Howell, Arland D. Schneider, & Judy A. Tolk	69-89
Minimum Center Pivot Design Capacities	Bill Kranz, Greg Lackas, & Derrel Martin	90-96
Irrigation Systems/Conversions Pumping Plants	Harold R. Duke	97-100
Considerations When Converting from Flood to Pivot Irrigation	Danny H. Rogers	101-104
Planning for Deficit Irrigation	Derrel Martin, Norman Klocke, & Gary Hergert	105-116
Stretching Limited Water Supplies	G. W. Hergert, J. P. Schneekloth, & N. L. Klocke	117-121
Irrigation Pumping Plant Alternatives	Norman L. Klocke & Richard T. Clark	122-126
Runoff Control Practices	William Kranz	127-135
The Nebraska Microcomputer Irrigation Scheduling Software	Ron Roeber & Norm Klocke	136-140
LEPA Irrigation Project Report	William E. Spurgeon & Thomas P. Makens	141-144
LEPA Runoff Project Report	William E. Spurgeon & Thomas P. Makens	145-147
Irrigation Scheduling with Atmometers	Israel Broner	148-157
Groundwater in the Nebraska Panhandle	Steven S. Sibrary	158-162
Nitrogen Management and Inhibitors	Jim Schild	163-166
Nitrogen Management: Proper Accounting and Utilization of Nitrogen Resources	Richard B. Ferguson	167-173

Elm Creek Water Quality Project	Webster County Cooperative Extension & SCS	174-183
Mid-Nebraska Water Quality Demonstration Project	Andrew Christiansen	184-185
An Overview of Irrigation Scheduling Techniques	Joel Cahoon	186-189
Economic Considerations in Water Management	Roger Selley & Joel Cahoon	190-194
Cutting Irrigation Fuel Costs	Thomas W. Dorn	195-200
Tailwater Recovery System Operation and Design	Steve Moran	201-203

February 4 and 5, 1992
Goodland, Kansas

Is One Sprinkler System Good for All?	Dale F. Heermann	1-4
How Much Water Do I Apply	Harold R. Duke	5-8
Evapotranspiration and Irrigation Capacity	Terry A. Howell	9-13
LEPA, Concept and System	William M. Lyle	14-16
LEPA Project Report	William E. Spurgeon & Thomas P. Makens	17-19
Center Pivot Irrigation Energy Conservation Project for Western Nebraska	C. Dean Yonts, Derrel Martin, & LaVerne Stetson	20-22
Effect of System Capacity and Nozzle Type on Corn Production	Freddie R. Lamm	23-25
Furrow Irrigation Management	Israel Broner, Joel Cahoon, & Harry Manges	26-48
Planning for Deficit Irrigation	Derrel Martin, Norman Klocke, & Gary Hergert	49-64
Economics of Irrigation Efficiency Improvements and System Conversions	Danny H. Rogers, Kevin C. Dhuyvetter, Mark E. Nelson, & Ron F. Meyers	65-81
Irrigation Water Quality Implications	Richard D. Black	82-85
Herbicide Mass Transport from Agricultural Fields in Kansas	Philip Barnes	86
Drip Irrigation for Corn Production	Freddie R. Lamm, William E. Spurgeon, Harry L. Manges, & Danny H. Rogers	87-92
Kansas Requirements for Irrigation Water Conservation Plans	Matt A. Scherer, III	93-95
Writing Irrigation Water Conservation Plans	Harold R. Blume	96-98
Irrigation Development Plans in GMD #4	Ray Luhman	99-100
Evaluation of Irrigation Water Conservation Plans	L. Kent Shaw	101-102

February 2 and 3, 1993
Sterling, Colorado

Pesticide Transport in Runoff from Agricultural Fields	Philip Barnes	1-4
Fertigation Through Surge Valves	Richard C. Bartholomay & Daniel F. Champion	5-15
Management Considerations in Surged Flow Irrigation	Joel Cahoon	16-25
Soil Factors and Yield Variability in Furrow-Irrigated Corn	Richard B. Ferguson	26-31
Low Pressure Spray Mode and Tillage Management for Corn	W. E. Spurgeon, D. L. Martin, & C. D. Yonts	32-42
Reducing Sprinkler Water Losses	Arland D. Schneider & Terry A. Howell	43-46
Well Capacity, Crop Water Use, & Irrigation Scheduling: Important Factors in Irrigation Management	Richard J. Wenstrom	47-52
Kansas: State Water Law and Current Issues	Danny H. Rogers	53-55

February 7 and 8, 1994
Kearney, Nebraska

Water Quality Programs in the Tri-Basin Natural Resources District	Kevin Breece	1-8
Corn Management System for Reducing Goundwater Contamination	Kirk Thompson & Israel Broner	9-11
Surface Irrigation Management	Dean Eisenhauer, Joel Cahoon, & Chuck Burr	12-15
Nitrogen Management Activities at the MSEA Site	James S. Schepers	16-21
Monitoring Management Effects on Ground Water Quality	Roy F. Spalding	22-28
The Nebraska Wellhead Protection Program and its Possible Impacts on Agriculture	Bruce V. Hanson	29-32
Interstate Water Compacts	Donald Blankenau	33-34
Plugging Abandoned Wells	DeLynn Hay	35-41
Surge Irrigation Extension Education Programs	Kelly J. Wertz	42-47
Surge Irrigation Management	Kelly Wertz, Joel Cahoon, & C. Dean Yonts	48-52
Evaluating and Fine Tuning Furrow Irrigation Systems	Joel Cahoon & Dean Eisenhauer	53-65
Sprinkler Devices	Ron Schultz	66-69
Matching Sprinkler Packages with Field Conditions	Bill Kranz	70-79
The Effects of Conversion on the Pumping Plant	Danny H. Rogers	80-94
Considerations in Switching from Furrow to Sprinkler Systems	Roger Selley	95-97
Design and Management Considerations for Subsurface Drip Irrigation Systems	Freddie R. Lamm, Danny H. Rogers, & William E. Spurgeon	98-106
Subsurface Drip Irrigation Research for Corn	Freddie R. Lamm, William E. Spurgeon, Harry L. Manges, & Danny H. Rogers	107-110
An Economic Analysis of Subsurface Drip Irrigation for Corn	Mark E. Nelson & Kevin C. Dhuyvetter	111-125
High Frequency Low Pressure In-Canopy Sprinkler Irrigation	M. A. Vela Reyes, W. E. Spurgeon, & D. J. Tomsicek	126-131

February 7 and 8, 1995
Garden City, Kansas

Crop Water Requirement or Irrigation Water Requirement	Gary A. Clark	1-4
Evapotranspiration (ET) or Crop Water Use (NebGuide G90-992)	Norman L. Klocke, Kenneth G. Hubbard, William L. Kranz, & Derrell G. Watts	5-8
Furrow Irrigation	Harry L. Manges	9-14
Ridge Tillage Research in Western Kansas	Alan Schlegel & Kevin Dhuyvetter	15-23
Surge Irrigation Management (reprinted from 1994 Central Plains Proceedings)	Kelly Wertz, Joel Cahoon, & C. Dean Yonts	24-28
Application of Surge Irrigation in Colorado	Compiled by Israel Broner	29-42
Center Pivot Sprinkler Irrigation Requirements for Corn in Northwest Kansas	F. R. Lamm & D. H. Rogers	43-48
Variable Applications of Water and Chemicals Through Center Pivot Sprinkler Systems	G. W. Buchleiter, D. F. Heermann, & H. R. Duke	49-54
How Much Water Do I Apply?	Harold R. Duke	55-59
Reducing Sprinkler Water Losses	Arland D. Schneider & Terry A. Howell	60-63
Uniformity of In-Canopy Center Pivot Sprinkler Application in Fully Developed Corn Canopies	Freddie R. Lamm	64-72
Sprinkler Package Option Effects on Runoff—General Guidelines	W. E. Spurgeon, D. H. Rogers, & W. Sothers	73-91
Economics of Converting from Flood Irrigation to Center Pivot Sprinkler Irrigation	K. C. Dhuyvetter	92-100
Pumping Plant Modifications	Harold R. Duke	101-106
Irrigation and Crop Management for Limited Water Supplies	N. L. Klocke, J. P. Schneekloth, R. T. Clark, & G. W. Hergert	107-114
Wide-Spaced Furrow or Band Irrigation as a Tool for Deficit Irrigation	John F. Stone	115-121
Irrigation Scheduling: Determining Crop Water Use	Michael A. Kizer	122-127
Charting Soil Water—A Tool for Irrigation Scheduling	Norman L. Klocke & Joel E. Cahoon	128-132
Well Capacity, Crop Water Use, & Irrigation Scheduling: Important Factors in Irrigation Management	Richard J. Wenstrom	133-138

An Economic Comparison of Subsurface Drip Irrigation (SDI) and Center Pivot Irrigation for Field Corn	K. C. Dhuyvetter, F. R. Lamm, & D. H. Rogers	139-147
Design and Management Considerations for Subsurface Drip Irrigation Systems	Freddie R. Lamm, D. H. Rogers, & W. E. Spurgeon	148-155
Subsurface Drip Irrigation Research for Corn	Freddie R. Lamm, Harry L. Manges, Danny H. Rogers, & William E. Spurgeon	156-159
Use of Drip Irrigation on Alfalfa	Joe Henggeler	160-168

February 6 and 7, 1996
Burlington, Colorado

Sprinkler Application and Effects on Corn Yield Tillage Practice	Danny H. Rogers	1-12
Converting from Furrow Irrigation to Center Pivot Irrigation—Does It Pay?	Kevin C. Dhuyvetter	13-22
Electrical Safety Requirements for Irrigation Systems	LaVerne E. Stetson	23-36
Tractor Safety—Prevention and Protection	Paul D. Ayers	37-45
Nitrogen Management Under Irrigated Conditions	Grant E. Cardon	46-52
Water Management	C. Dean Yonts	53-55
Chemigation Benefits Through Equipment Choices	Gary Newton & Erik W. Tribelhorn	56-62
Involving Agricultural Producers in Development of Localized Best Management Practices	Lloyd R. Walker & Reagan M. Waskom	63-67
Automation and Remote Sensing—Equipment and Application Benefits	Walter C. Bausch, Gerald Buchleiter, & Neil Havermale	68-73
An Economic Comparison of Alternative Irrigation Systems on Small and Irregularly Shaped Fields	Daniel O'Brien, Danny Rogers, & Freddie Lamm	74-88
GPS (Global Positioning System) Basics and Applications	Paul Ayers	89-99
CropFLEX-A Vadose Zone Quality and Farm Sustainability Decision Support Tool for Managing Irrigation and Fertilizer	P. Lorenz Sutherland, K. R. Thompson, Israel Broner, Adam Weinrich, Jim Valliant, Mike Bartalo, & P. N. Soltanpour	100-107
Microirrigation in Gardens and Landscapes	Gary A. Clark	108-113
Assessment of Crop Water Use for Dry Beans with Drip Irrigation	Mahdi Al-Kaisi	114-121
Greenhouse Irrigation and Fertilization Overview	Kyle R. Mankin	122-125

February 4, 1997
Colby, Kansas

Weather Modification Update	W. Bossert	1-10
Water Runoff from Sprinkler Irrigation -- A Case Study	N.L. Klocke, W.L. Kranz, C.D. Yonts, and K. Wertz	11-13
In-Canopy Sprinkler Application for Corn: What Works and What Doesn't Work	F.R. Lamm	14-23
An Economic Analysis of Flood and Center Pivot Irrigation System Modifications	D.R. DeLano, J.R. Williams, D.M. O'Brien	24-33
Performance of In-Canopy Sprinklers	C.D. Yonts	34-44
Irrigation Efficiencies of Surface Systems	Mahbub Alam	45-48
Improvements in Irrigation Efficiency	F.R. Lamm	49-52
Chemigation	M. Anderson	53-55
Irrigation Scheduling Using Evapotranspiration (ET): Example Schedule	D.H. Rogers	56-64
Design and Management Considerations for Subsurface Drip Irrigation Systems	F.R. Lamm, D.H. Rogers, W.E. Spurgeon	65-71
KSU Research for Corn Production Using SDI	F.R. Lamm; W.E. Spurgeon, D.H. Rogers, H.L. Manges	72-80
Irrigation System Economics as Affected by Field Size	D.M. O'Brien, D.H. Rogers, F.R. Lamm, G.A. Clark	81-93

February 17-18, 1998
North Platte, Nebraska

Computing Field Losses for Furrow Irrigation	B. L. Benham	1-5
Design and Management Considerations for Subsurface Drip Irrigation Systems	F.R. Lamm, D.H. Rogers, and W.E. Spurgeon	6-12
KSU Research for Corn Production Using SDI	F.R. Lamm and W.E. Spurgeon	13-21
Filtration and Maintenance Considerations for SDI Systems	T.P. Trooien, M. Alam, and F.R. Lamm	22-26
Economic Comparison of SDI and Center Pivots for Various Field Sizes	D.M. O'Brien, D.H. Rogers, F.R. Lamm, and G.A. Clark	27-38
In-Canopy Sprinkler Application for Corn: What Works and What Doesn't Work	F.R. Lamm	39-48
Determining Runoff Potential	W.L. Kranz	49-54
The Effects of Conversion on the Pumping Plant	D.H. Rogers	55-69
Economics of Conversion from Flood to Pivot	R.A. Selley	70-73
Access and Use of ET Data on the Internet	K.G. Hubbard	74-87
Irrigation Scheduling -- An On-Farm Update	R.J. Wenstrom	88-91
Validation of Cropflex -- A Crop Management Program	J. Lorenz and I. Broner	92-98
Basinwide Recovery Program for Endangered Species in the Central Platte River Basin	J.R. Cook	99-104
Potential for Variable Water and Chemical Application	H.R. Duke	105-109
Moving Precision Agriculture to a New Dimension -- The ARS/CSU Precision Farming Project at Wiggins, Colorado, USDA-ARS	K.L. Fleming, D.G. Westfall, D.F. Heermann	110-114
Polyacrylamide -- A Method to Control Erosion	C.D. Yonts	115-121

February 9-10, 1999
Sterling, Colorado

Water Issues in the Kansas Central Plains	C. Duffy	1-8
Irrigated Precision Farming	D.F. Heermann and H.R. Duke	9-12
Describing and Modeling Saline Shallow Water Table Problems in the Lower Arkansas River Valley, Colorado	T.K. Gates, J.W. Labadie and J. Valliant	13-23
Understanding Salinity in the South Platte River Valley	M. Petersen	24-28
Water Management: A Kansas Farmer's Viewpoint	C.A. Meyer	29-31
Managing Swine Effluent Applications Under Irrigated Conditions in Northeast Colorado	M. Al-Kaisi and R. Waskom	32-41
Irrigation Corn with High Nitrate Water	D. Watts and D. Fekersillassie, and J. Schepers	42-51
Optimum Nitrogen Fertigation for Corn Using SDI	F.R. Lamm, A.J. Schlegel, and G.A. Clark	52-61
Limited Irrigation Strategies for Dry Edible Beans and Sugarbeets	C.D. Yonts	62-71
Irrigation Scheduling Demonstration for Water Conservation in Western Kansas	M. Alam, T.P. Trooien and D.H. Rogers	72-77
Sprinkler System Conversions	W. L. Kranz	78-85
Economics of Surface and Sprinkler Irrigation System Conversion for Lower Capacity Systems	D.M. O'Brien and F.R. Lamm	86-96
Reading Pump and Engine Performance Curves	D.H. Rogers and W.M. Sothers	97-100
Evaluating Pumping Plant Efficiency – Using On-Farm Fuel Bills	D.H. Rogers and R.D. Black	101-104

February 9-10, 2000
Garden City, Kansas

Observing irrigation-based change in western Kansas	D.E. Kromm	1-10
Issues regarding Kansas water resource planning	Clark Duffy	11-25
The U. S. Geological Survey's national water-quality assessment program — High Plains regional ground water study	Kevin F. Dennehy	26-27
George Knapp's watery vision for Kansas	James E. Sherow	28-38
Risk issues of bio-engineering	Bob Bowden	39-41
Chemophobia -- The excessive fear of small amounts of chemicals	Clifton E. Meloan	42-51
Ground water quality of the quaternary deposits, Central High Plains, Kansas, 1999	Larry M. Pope	52
Ground-water quality of the Ogallala Formation, Central High Plains, Colorado, Kansas, New Mexico, Oklahoma, and Texas, 1999	Mark F. Becker	53
Retrospective analysis of historical water-quality data for the High Plains regional aquifer, 1950-97	David W. Litke	54
Upper Arkansas River subbasin management program	E. G. Hargett	55
A summary of the intensive groundwater control area concept in Kansas	Thomas L. Huntzinger	56-58
The total maximum daily loads process in Kansas	Daniel L. Devlin	59-62
Water quality of the Arkansas River and its effect on ground water	Donald O. Whittemore	63-71
Design and management considerations for subsurface drip irrigation systems	Freddie R. Lamm, Danny H. Rogers, and William E. Spurgeon	72-80
Using livestock wastewater with SDI	Todd P. Trooien, Freddie R. Lamm, Loyd R. Stone, Mahbub Alam, Danny H. Rogers, Gary A. Clark, and Alan J. Schlegel	81-87
The economics of converting from surface to sprinkler irrigation systems for lower pumping capacity wells	Daniel M. O'Brien and Freddie R. Lamm	88-98

Irrigation scheduling demonstration in western Kansas	Mahbub ul Alam, Todd Trooien, and Danny Rogers	99-103
South Central Kansas irrigation management project	Danny Rogers and Gary Clark	104-106
Performance of in-canopy sprinklers	C. Dean Yonts	107-117
Who wants to be an in-canopy irrigator?	Freddie R. Lamm	118-127
Determining runoff potential	Bill Kranz	128-134
Precision agriculture: Variable rate technology and management zones	R. Khosla	135-139

February 5-6, 2001
Kearney, Nebraska

Living with Limited Water in Southwest Nebraska	Joel Schneekloth and Nancy Norton	1-10
Design And Management Considerations For Subsurface Drip Irrigation Systems	Freddie Lamm, Danny Rogers, and William Spurgeon	11-13
Subsurface Drip Irrigation For Alfalfa In Kansas	Mahbub Alam, Todd Trooien, Steven Stone, and Danny Rogers	14-23
Advances In Soil Mapping For Improved Irrigation Management	Gerald Buchleiter	24-33
Spatial Distribution Of Water And Nitrogen Application Under Center Pivot Sprinklers	Stan Best Sand Harold Duke	34-44
Using Ultrasonic Flow Meters In Irrigation Applications	Brian Benham and Dean Eisenhauer	45-48
Annualized Cost of an Irrigation System	Thomas Dorn	75-81
Computing Field Losses for Furrow Irrigation	Brian Benham	82-86
Selecting Sprinkler Packages for Land Application of Livestock Wastewater	Jacob LaRue	87-96
Using Livestock Wastewater with SDI – A Status Report After Three Seasons	Freddie Lamm, Todd Trooien, Loyd Stone, Mahbub Alam, Danny Rogers, Gary Clark, and Alan Schletel	97-104
Irrigating with Swine Effluent	Bill Kranz	105-111
Field Scale Evaluations Of Center Pivot Systems	Danny Rogers, Gary Clark, and Mahbub Alam	112-124
Impact of Wide Drop Spacing in Corn	Dean Yonts, Brian Benham, Bill Kranz, and Jose Payero	125-135
Polyacrylamide (PAM) Effects on Irrigation and Sediment Yield	Dean Yonts and Brian Benham	136-141
Using Surge Irrigation for Automation	Dean Yonts	142-147
Low Volume Chemical Application System	Hamid Farahani and Gerald Buchleiter	148-155

February 5-6, 2002
Lamar, Colorado

Water and Nitrogen Management Using Cropflex	Israel Broner	1-7
Using Livestock Wastewater With SDI -- A Status Report After Four Seasons	Freddie Lamm, Todd Trooien, Loyd Stone, Mahbub Alam, Danny Rogers, Gary Clark, and Alan Schlegel	8-15
Irrigating With Swine Effluent	Bill Kranz and Charles Shapiro	16-22
Field Scale Monitoring and Modeling of Salinity and Waterlogging in the Lower Arkansas River Basin of Colorado	Luis Garcia and Nathan Foged	23-35
Achieving A Sustainable Irrigated Agroecosystem in the Arkansas River Basin: A Historical Perspective and Overview of Salinity, Salinity Control Principles, Practices And Strategies	P. Lorenz Sutherland	36-63
Management Strategies to Stretch Limited Water Supplies	Joel Schneekloth and Norm Klocke	64-73
Cropping Strategies With Water Resource Constraints	Danny Rogers	74-79
Irrigation System Efficiencies	Terry Howell	80-92
Design And Management Considerations for Subsurface Drip Irrigation Systems	Freddie Lamm, Danny Rogers, and William Spurgeon	93-101
Using Subsurface Drip Irrigation for Alfalfa	Mahbub Alam and Troy Dumler	102-109
Filtration and Maintenance Considerations for Subsurface Drip Irrigation (SDI) Systems	Mahbub Alam, Todd P. Trooien, Freddie Lamm, and Danny Rogers	110-121
Irrigation Capacity and Plant Population Effects on Corn Production and Using SDI	Freddie Lamm and Todd Trooien	122-130
Canal Seepage reduction Demonstration Using Polyacrylamides in the Ditch and Water: Arkansas River Valley of Colorado	Jim Valliant	131-138
Economics of Converting to Center Pivots for Southeast Colorado Irrigated Alfalfa	Daniel O'Brien	139-148
Technical Considerations of Converting from Surface Irrigation	C. Dean Yonts	149-151
Drip Irrigation Studies for Vegetable Crops in the Arkansas Valley of Colorado	Michael Bartolo, Orren, Doss, and Jessica Davis	152-156
Irrigation Energy Source Alternatives	Roger Selley, Richard Clark and Norm	157-167
