Rewriting the Rural Narrative

Moving IN, OUT, and OVER Ben Winchester Rural Sociologist

Heartland is Changing, not Dying

The Heartland Narrative

THU SEP 20, 2012 AT 09:04 PM PDT

The slow, agonizing death of the small US town

UNIVERSITY OF MINNESOTA | EXTENSION Driven to Discover**

1900-1950

- Mechanization of agriculture
- Roads and transportation
- Educational achievement and population loss
- Church closings

UNIVERSITY OF MINNESOTA | EXTENSION Driven to Discover

1950+

- Main street restructuring & regional centers
- School consolidations
- Hospitals closings

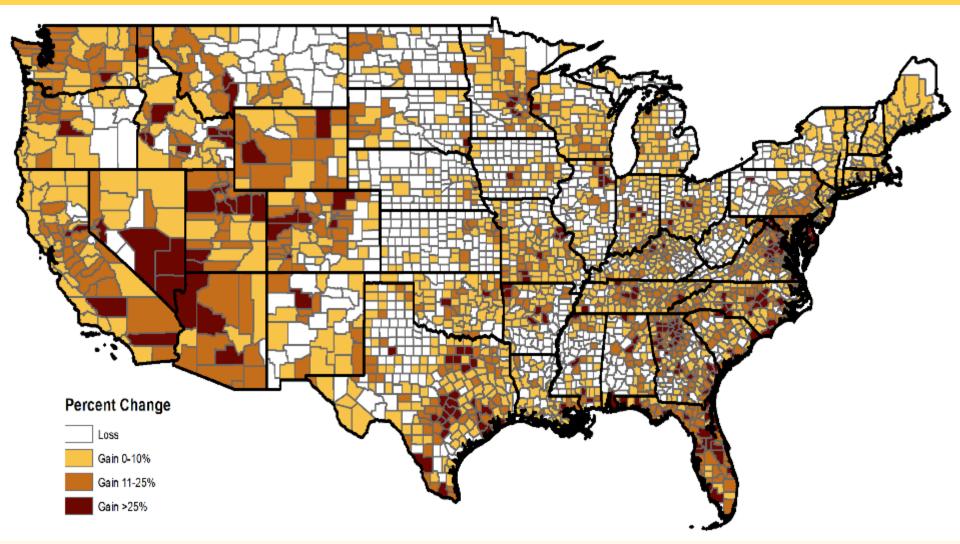

UNIVERSITY OF MINNESOTA EXTENSION

The narrative

- There's a brain drain
- We live in the middle of nowhere
- We are a sleepy town
- Everyone knows one another
- Nobody lock their doors
- What we had
- What we don't have
- What we wish we had
- What we could have had...

Total Population Infatuation

UNIVERSITY OF MINNESOTA | EXTENSION Driven to Discover**

Beyond Total Population

Comparison Historical Population from 1960 to 2010

Community	1960	1970	1980	1990	2000	2010	% Change
UMVRDC Region	69,063	61,806	59,822	50,845	50,011	45,190	-34.57%

Population loss is demographic destiny! (and will continue to be so)

Transfer of Wealth in Rural America

Understanding the Potential Realizing the Opportunity Creating Wealth for the Future

Shift indicators of success from population to houses.

Housing stocks are 1) a measure of community wealth, 2) home to individual wealth, and 3) persistent over time.

Heartland is Changing, not Dying

- Yes, things are changing
- Small towns are microcosms of globalization
 - Many of these changes impact rural and urban areas alike (not distinctly rural)
 - Yet more apparent in rural places
- Survived massive restructuring of social and economic life
- Research base does NOT support notion that if <u>XXXX</u> closes, the town dies

Prepare for one of the largest demographic changes to rural America since 1930

Share your thoughts on the topic of housing

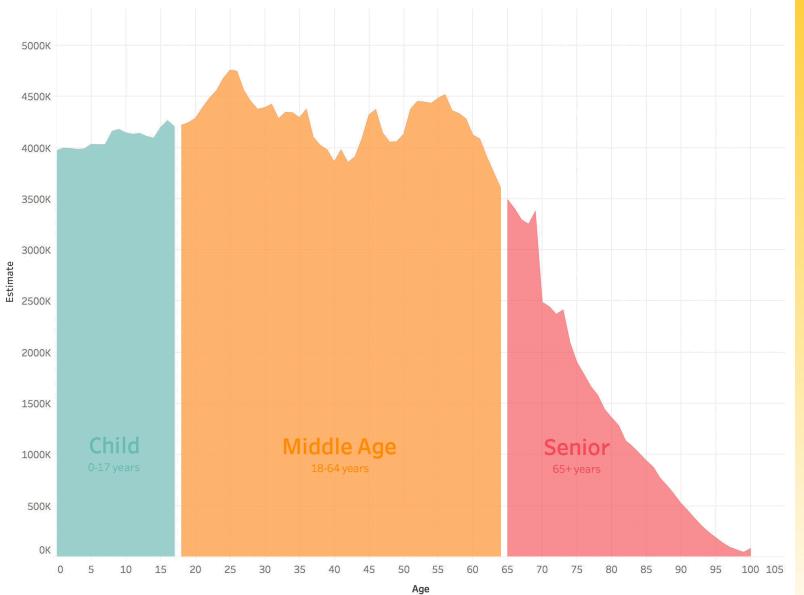

How many of you have had a personal experience with an older family member changing homes?

What do we have control over?

Who should care?

DISASTER or OPPORTUNITY?

UNIVERSITY OF MINNESOTA | EXTENSION Driven to Discover**

OK Boomer, Who's Going to Buy Your 21 Million Homes?

Baby boomers are getting ready to sell one quarter of America's homes over the next two decades. The problem is many of these properties are in places where younger people no longer want to live.

The Great Senior Sell-Off Could Cause the Next Housing Crisis

EMILY BADGER MAR 5 2013

Helpful Framing

- We have framed this discussion in using three ideas
 - Moving In (Brain Gain to communities)
 - Moving Out (Retirees and seniors moving out)
 - Moving Over (Family home to other housing option)

MOVING IN

THE RURAL BRAIN GAIN

UNIVERSITY OF MINNESOTA | EXTENSION Driven to Discover^{***}

Households Moving Between 1995 and 1999:

44% lowa
46% Kansas
Minnesota
Morth Dakota
47% Nebraska
48% South Dakota
49% United States

Choosing Rural

- Brain Gain: migration to rural age 30-49
 - Also 50-64 but not as widespread
 - Brain drain is the rule, not the exception
 - Happening since the 1970s

Newcomers look at 3-5 communities

 Topical reasoning (local foods regions)
 Assets vary by demographic

Newcomers: Why?

Simpler pace of life CAREEREE DR Safety and Security Low Housing Cost

Brain Gain Landing Page http://z.umn.edu/braingain/

UNIVERSITY OF MINNESOTA | EXTENSION Driven to Discover

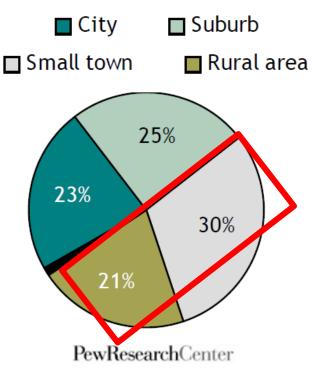

Newcomers: Who?

- 36% lived there previously
- 68% attain bachelors degree
- 67% household incomes over \$50k
- 51% have children in household
- May be leaving their career or underemployed
- Yet, Quality of Life is the trump card

Where We Live and Where We'd Like to Live

by community type

20% live rural/small town 51% would PREFER to

MOVING IN : Demand for rural and small town living!

UNIVERSITY OF MINNESOTA | EXTENSION Driven to Discover**

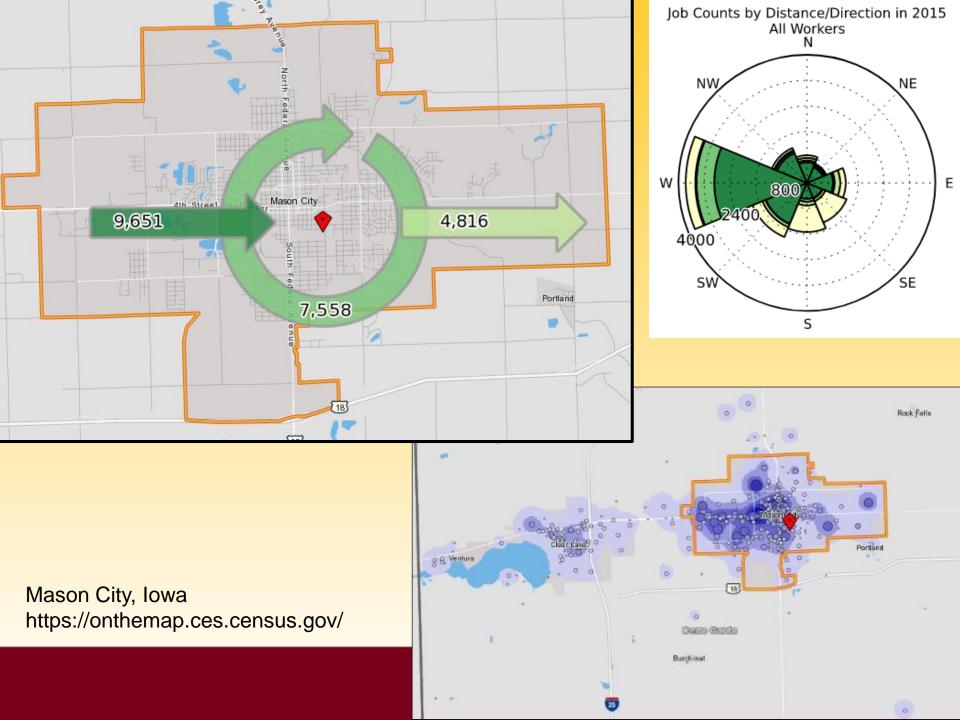

Regional Rural Economy

Shift to Regional Centers

"Not very many [housing] options for the people who are working here"

Does it matter? We can be a home without a job in the modern world.

The New Economic Narrative

- Remote workers
- Regional, and People-focused (selfemployment, 1099)
- Self-employment, multiple-job holding
- Tight labor market

We don't live in an economy, we live in a community

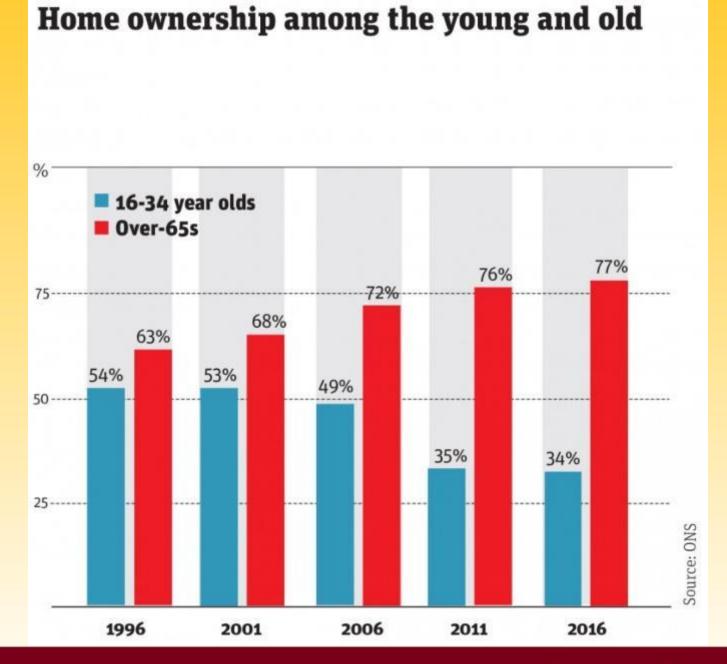

Employee Recruitment: Help people envision their LIFE here, not just their JOB.

Will Home-Ownership Continue?

Homeownership rate by age of householder in 2030 (and percentage point change, 2010-30) Aged 15 to 24: 13.4% (-2.7) Aged 25 to 34: 37.8% (-4.2) Aged 35 to 44: 55.2% (-7.1) Aged 45 to 54: 64.6% (-6.9) Aged 55 to 64: 69.6% (-7.7) Aged 65 to 74: 73.9% (-6.3) Aged 75 to 84: 74.4% (-3.5) Aged 85-plus: 68.5% (2.3)

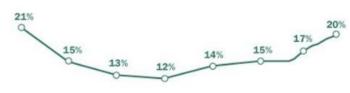

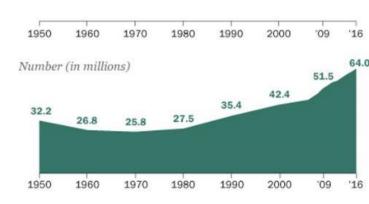

UNIVERSITY OF MINNESOTA | EXTENSION Driven to Discover***

STAYING PUT

a.k.a.

Policy of Best Intentions

(this isn't really a policy)

UNIVERSITY OF MINNESOTA | EXTENSION Driven to Discover**

Intentions and Reasoning

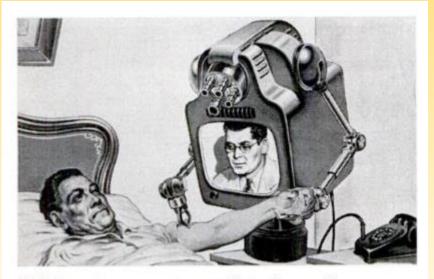

- 90% of seniors intend to stay in their homes
- Yet only 43% of those 70+ found it "very easy" to live independently
- Reasoning: Stress of moving, fear of losing independence, anxiety over leaving community, emotional ties to home, fear of the unknown

Aging in "PLACE"

- Most times means just aging in HOME
 - Which is cheaper
 - Many incentives to do so

Telemedicine can
 work for some

1954 Teledoctoring replaces inefficient house calls.

UNIVERSITY OF MINNESOTA | EXTENSION Driven to Discover

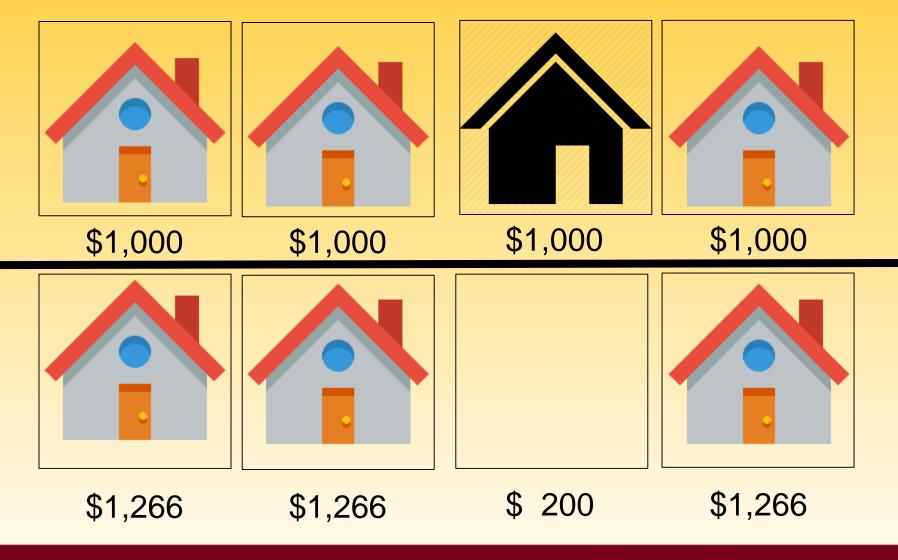

Aging in "HOME" long-term

- Can lower equity without maintenance or upgrades
- Can result in dilapidation

What is the public cost of inaction?

Impact of Dilapidated

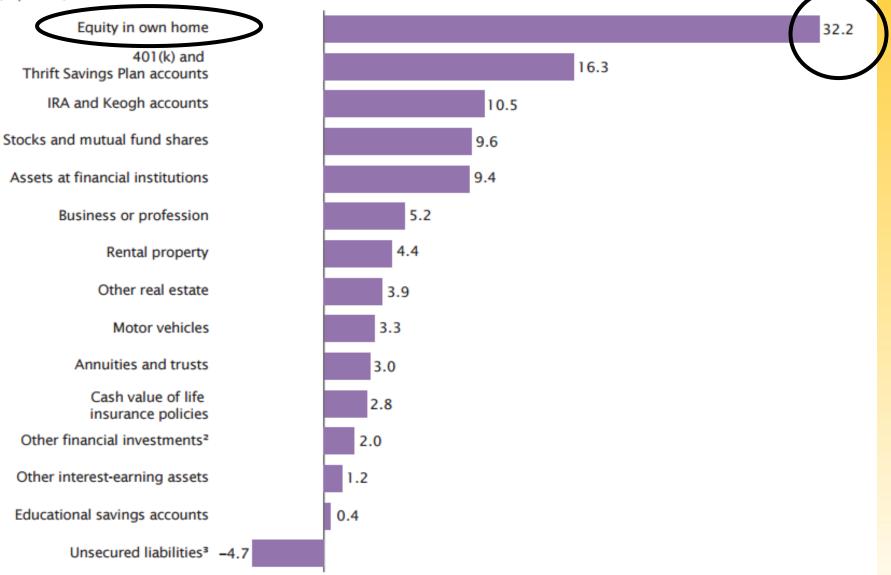

Levy remains the same

UNIVERSITY OF MINNESOTA | EXTENSION Driven to Discover**

Figure 1. Composition of Net Worth, by Asset Type: 2013¹

(In percent)

¹ Excludes households in the top 1 percent of net worth.

² Includes mortgages held for sale of real estate, amount due from sale of business or property, and other financial assets.

³ Because Bet worth is assess minus liabilities, unsecured liabilities are subtracted from the distribution of net worth and are shown as negative. Source: U.S. Census Bureau, Survey of Income and Program Participation, 2014 Panel. Home equity also persists as a measure of growing community wealth

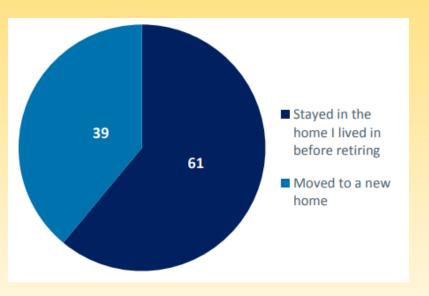

Yet, equity is not always seen as something to be tapped.

You can SHIFT equity to a new asset.

UNIVERSITY OF MINNESOTA | EXTENSION Driven to Discover**

Moving Over

- When seniors move over this opens their house up for supply.
- Inhibiting factors: Stress of moving, fear of losing independence, anxiety over leaving community, emotional ties to home, fear of the unknown
- However, making "move over" decision during emergency mode only increases these stresses!

Example: Patio Homes

They have manageable, senior-friendly floor plans, and often provide landscaping services, minimizing upkeep for the residents.

Moving Over: The Economic Case

Retaining Retirement Dollars and Transfer Receipts

Retirement (Social Security only) and disability insurance benefits and Medicare/Medicaid benefits

Source: Regional Economic Information System, Bureau of Economic Analysis

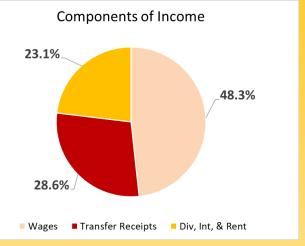

Not all earned income comes from a job

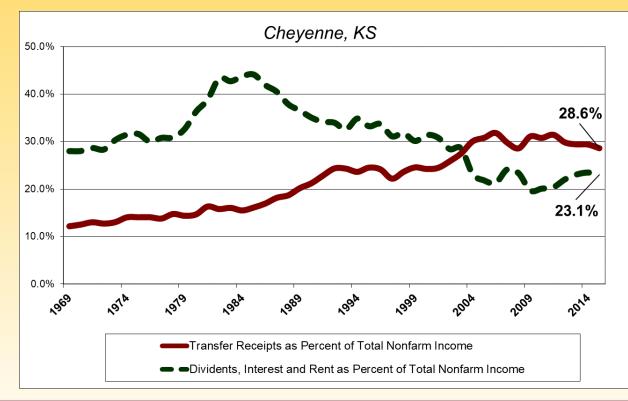

UNIVERSITY OF MINNESOTA | EXTENSION Driven to Discover**

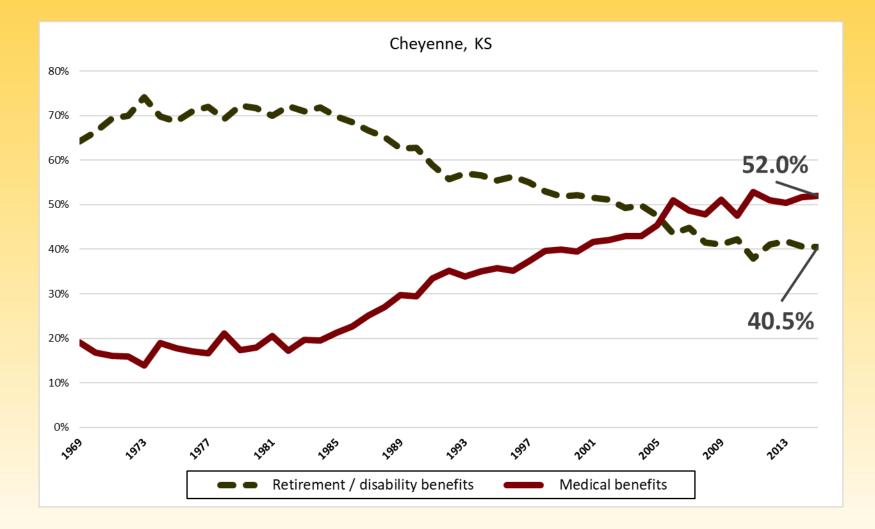

Components of Income, 1969-2015

Transfer Receipts are composed of Retirement (Social Security only) and disability insurance benefits and Medicare/Medicaid benefits

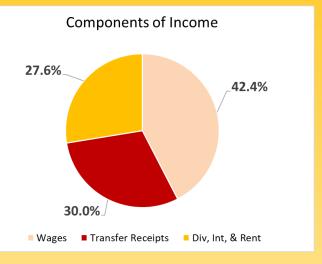

Components of Transfer Receipts, 1969-2015

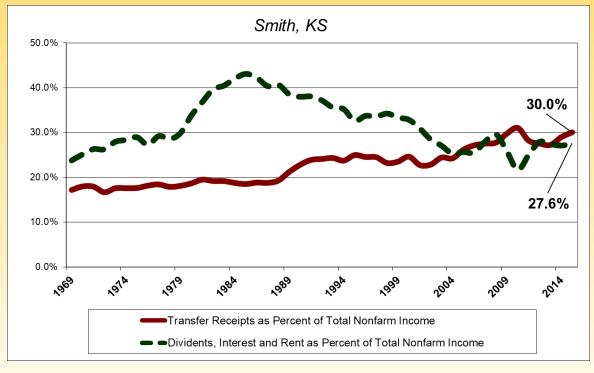

Components of Income, 1969-2015

Transfer Receipts are composed of Retirement (Social Security only) and disability insurance benefits and Medicare/Medicaid benefits

County	% Transfers	% Income from Job	County	% Transfers	% Income from Job
			Ottawa	23	61
Cheyenne	29	48	Phillips	20	61
Cloud	28	52	Rawlins	24	52
Decatur	27	46	Republic	26	55
Ellis	15	68	Rooks	22	57
Ellsworth	23	58	Russell	22	58
Gove	14	72		19	63
Graham	24	58	Saline		
Jewell	28	46	Sheridan	19	57
Lincoln	27	53	Sherman	27	53
Logan	20	58	Smith	30	42
Mitchell	20	64	Thomas	18	63
Norton	21	59	Trego	27	54
Osborne	25	52	Wallace	24	51

Transfer Receipts are composed of Retirement (Social Security only) and disability insurance benefits and Medicare/Medicaid benefits

A Senior Service Economy

- Local economy is only going to become more integrated with boomer-related services
- We should want to retain these transfer receipts
- "Move over" housing is the opportunity

 Current home may be only equity of the oldest people

Moving Over Limitations

Medicaid may inhibit choices to move due to home sales, those funds are counted against you.

It may make you ineligible for medical cost coverage.

Senior Housing opens up Workforce Housing

Workforce housing shortage?

We build supply in workforce housing by making the existing housing stock available.

SO, HOUSING IS A KEY

A house is not just a private asset, but also a COMMUNITY asset that persists over time

UNIVERSITY OF MINNESOTA | EXTENSION Driven to Discover**

Point of Change

- Vacant or new property
- Property entering market

- Strategy to work with buyers, or sellers, or both?
 - Unnatural partners: Construction, lumber yards
- Talent Pipeline vital!

Challenge: The House

- Lack of data regarding condition inside of the house
- Lack of data regarding intentions by those living in the house
- Lack of data regarding needs of those that WANT to live in the house

Challenge: The People Here

- Engage seniors and their families
- Experience studies for those forced into decisions, how did it go?
- Aging in Place: Intentions to stay in house, in town. Services for seniors.

Appeal to sense of continuity for families and the community

UNIVERSITY OF MINNESOTA | EXTENSION Driven to Discover^{***}

Challenge: The People Not Here Yet

- Expand the conversation about housing in your community
- Engage newcomers
- Build model of housing demand
- Rewrite your rural narrative

The future of your community is in the hands of people that are not yet here!

RURAL HOUSING WEALTH

Maybe one of the best things you can do for the future of your community is to ensure there is somewhere for people to live.

- What problems and related solutions are you hearing in communities related to rural housing?
- When thinking about rural housing issues, what data or information do you wish you had/knew?
- Who are natural partners in this work? How about unnatural partners? What is the role of employers?
- What actions can we take? Taking no action is an action too. What is the cost/benefit of these?
