Experience: Tech Director America’s SBDC Iowa

Director
KARL KLEIN, CVA, CEPA
Experience (Current): Regional Director WU KSBDC

Tech Consultant
TOM BYLER, CEPA
Experience: Regional Director ESU KSBDC
BACKGROUND

Matching team capabilities with regional needs

Through working with small businesses and other resources in the State of Kansas – and through learning about support systems available in other areas – we identified gaps in regional system for innovation, technology and exporting businesses: startup assistance, management support, access to capital and resources.

Our combined experience, certifications, partnerships and professional connections are well-suited for our team to offer focused, higher-level services to innovation, technology and exporting businesses needing assistance to fill in these gaps.
The mission of BRITE Center is to cultivate and assist small businesses involved in innovation or technology, and those with potential for exporting, in order to generate economic prosperity for our region. Key activities of the BRITE Center include delivering high-level advising and educational programs, collaborating with partners and serving as a conduit to resources and capital.
VISION

To become the primary centralized resource in our region for small businesses in technology, innovation and exporting and for relevant stakeholders.

Context

- The world needs innovations to meet our needs and solve our shared problems.
- To keep up with the world, as a region, we need to support innovation, technology and exporting businesses.
- 95% of the world’s population lives outside of the U.S.

Objectives

- Focus higher-value services on high-potential clients
- Strengthen collaboration with resource partners
- Support businesses with the most potential to have lasting economic impact
- Help businesses be more resilient during economic downturns
THE WORLD NEEDS INNOVATIONS

Example Areas:
Agriculture
Animal health
Artificial intelligence
Biosecurity
Climate change
Communications
Cybersecurity
Disaster response
Disease prevention
Energy

Engineering
Environmental protection
Fin tech
Food systems
Health care
Human resources
Informatics
Insurance
Logistics
Materials
Medical technology
Nutrition
Plant health
Pollution control
Soil management
Space
Transportation
Waste management
Water management
Weather prediction
Of the 3,341 firms that exported goods from Kansas in 2018, 2,770 (82.9%) were small businesses.

- This is just over 1% of the 256,950 small businesses in Kansas.
- Small firms generated 25.6% of Kansas' $10.2 B in total exports.
- Kansas goods exports in 2016 supported an estimated 60K jobs.

Nationally, jobs supported by goods exports pay up to an estimated 18% above the national average.

Nationally, 97% of exporters are small businesses.

- This is < 1% of small businesses nationally.
