Why: First Impressions?

• **Feedback:**
   How does a first-time visitor view my town?
   – Evaluate successes,
   – Set goals and priorities for next steps.

• **If you don’t agree with the observation:**
  – *Be curious,* Why does the visitor see it this way?
  – Is the observation worth considering?
  – What can we do to change it—or the perception?

---

**Curiosity:**  A strong desire to know or learn something.

• In a survey of newcomers to rural areas, the reasons they come are:
  – Simpler pace of life
  – Safety and Security
  – Low housing cost
  – "A job," isn’t in the top 10 reasons.

• “In small towns everyone knows each other.” false

• Get to know each other, invite them to a newcomers meal.
• If you bring 7 people to a 700 citizen town every year in 10 years you’ll have a 10% increase. It matters! It is a challenge with housing, but it is achievable.

• We are our own worst enemies. We have to monitor our customer service and what we say. It matters.

• Don’t say, “You have to live here twenty years to be an insider.” And don’t act like it either.
• 75% of rural homeowners are Baby Boomers and older. 30% are over 75.
• Housing will be freed up as the baby boomers retire and move closer to medical services.
• Rural communities need retirement housing (not nursing facilities, but maintenance free) to retain seniors. - Ben Winchester, Senior Research Fellow, University of Minnesota

• Owner or manager was handling the staff kindly and waiting on customers. Polite and professional.

Observation:

• Global marketing makes your town accessible to purchases all over the world.
Industrial Parks/Commercial

• Didn’t seem to be concentrated in one area, or not sure.

• Another observed that industrial areas were easy to spot. Perhaps some former industrial areas became surrounded by residential over time.

• Plenty of room to expand around the outside of town if land is for purchase or lease.
Health Care Services

• One visitor couldn’t find any obvious hospitals or emergency medical services while driving through town.
• Hospital was observed by others, as well as chiropractors, dentists, and county emergency services.

• All appeared to be in good condition and well maintained.
Housing was a little dated in some areas, some needed maintenance. Overall a welcoming small town feel.

Broad range of options – apartment living to multi-level homes and ranches.

Looked online prior to visit and found properties to purchase at various price levels, but didn’t see a lot of evidence of for sale or rent upon visiting.
• Many very beautiful, big houses in town.
There doesn’t seem to be a lot of enforcement of ordinances as there are nice homes mixed with some very run down places. That can hurt when people are looking for places to live. Possible cleanup or demolition of older properties?
• Some apartments were observed.

• Weekly farmer’s market.
• Amazing library.
