

Processor Letter

FSMA requires that all farms seeking an exemption on account of commercial processing must obtain written assurances from the processing buyer that the purchased produce has been treated to adequately reduce the presence of microorganisms of public health concern (CFR §112.2).

I certify that produce purchased from _____ has been commercially processed in a
Farm Name
manner that adequately reduces the presence of microorganisms of public health concern prior to entering
commerce.

Processor Letter

FSMA requires that all farms seeking an exemption for commercial processing to disclose in documents accompanying the produce that it has not been processed to adequately reduce the presence of microorganisms (CFR §112.2).

The produce purchased from _____ has not been processed to reduce the
Farm Name
presence of microorganisms of public health significance. All produce must receive commercially processing
in a manner that adequately reduces the presence of microorganisms of public health concern prior to
entering commerce.
